Aquasential® Reverse Osmosis
Drinking Water System

Everyone deserves great water.

Water should be simple. You turn on the tap, and safer, great-tasting water comes out. And with the Aquasential® Reverse Osmosis (RO), that's exactly how it works.

Featuring a sleek, space saving design, modern faucet, and simple service and maintenance, it's made to make great water simple.

With up to 7 stages of filtration and 12 interchangeable filters, it's certified for reduction of 60 contaminants which includes 15 emerging contaminants. These contaminants* could include lead, arsenic, pharmaceuticals or volatile organic compounds (VOCs). And it's the only advanced drinking water system that can be customized to fit your family's needs.

With an Aquasential® Reverse Osmosis System you'll get...

CLEANER, SAFER WATER

UNLIMITED SUPPLY OF
GREAT TASTING WATER

BETTER TASTING FOOD
AND BEVERAGES

PEACE OF MIND

* Contaminants may not be in your water.

Not all drinking water solutions are created equal.

The Culligan® Aquasential® RO offers various filtration options and can be tailored to meet your specific water needs.

The Aquasential RO Drinking Water System can be configured with advanced specialty filters that target specific contaminants such as lead, volatile organic compounds (VOC's), pesticide runoff** and other types of emerging contaminants such as PFOA/PFOS.

DESIGN

- Sleek, modern look
- Built for fast installation and service

ADVANCED FILTRATION

- Targets contaminants* such as lead, arsenic, volatile organic compounds, and other emerging contaminants such as PFOA/PFOS
- Optional 2-year filter life

PREMIUM FAUCET

- Modern ergonomic design
- Metal faucets available in Brushed Nickel, Chrome, Matte Black and Bronze

Healthy water for home or office

The Aquasential RO system includes a premium drinking water faucet. An optional integrated monitor light on the handle indicates time to change filters.

Less cost, less hassle

Aquasential RO's long-lasting filters give you a continuous supply of great tasting water for pennies a glass, without the hassle of single-use bottles.

It's easy going green

Each Aquasential RO system helps reduce the amount of plastic bottles that end up in landfills along with decreasing the amount of oil and gasoline used to produce and deliver them.

Hey Culligan!

Your Culligan drinking water system comes with your own personal Culligan Water® expert. With over 85 years of water treatment experience, you can trust that they will help you find the right system for your family's water needs.

Water Concerns

Over two-thirds

67%*

of consumers across North America are concerned about the quality of their household water supply.

* National Consumer Water Quality Association (WQA) research survey, 2009

Product Specifications

2-in-1 Sediment & Carbon Filter

Screens out sediment and particles. Reduces elements that cause water to taste and smell unpleasant, including the taste and odor of chlorine.

Reverse Osmosis Filter

Reduces dissolved substances such as radium, lead, arsenic V, and many others.¹

Optional Specialty Filters

Specialty filters are available that provide a range of benefits including pH balance or the reduction of additional substances² such as VOC³, pharmaceuticals and mercury.

Post Carbon Filter

A second carbon filter ensures your drinking water is cleaner and fresh.

Manifold Assembly

Molded using SteriTouch® resin, the patented single manifold ensures reliability and houses four separate filters.

Designer Faucet

Multiple finishes are available. An optional integrated monitor light on the handle indicates time to change filters.

Reservoir Tank

Durable, high quality jacketed steel tank ensures you'll have a plentiful supply of refreshing water.

Quality Monitor (not shown)

State-of-the-art electronics automatically monitors the water quality.

1. Consult the Performance Data Sheet for the specific contaminant reduction capabilities of this device.
2. Substances are not necessarily in your water.
3. VOC is a broad term used to describe many chemicals and compounds that are known carcinogens.

CAUTION: Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

The contaminants or other substances removed or reduced by this water treatment device are not necessarily in your water. Source water exceeding chemical parameters requires pre-treatment.

The Culligan Commitment

At Culligan we are committed to providing the highest quality products. Our units are tested to the highest standard and use parts that are corrosion resistant. Culligan also offers the most experienced, professional service. Since 1936, you can count on Culligan's tradition of innovation and service in the water treatment industry. A trained technician will install and program your home system. Your Culligan dealer is easy to work with as we can provide salt delivery, filter and media changes, rentals and financing is also available.
